DVJ-1000 Digital CD / DVD Deck

Introducing Pioneer's new benchmark digital deck, the DVJ-1000. Incorporating the same heritage, operation and layout as the top end CDJ, the fully loaded DVJ-1000 adds the power of DVD into the mix.

DJs can perform audio-only sets or deliver sensational DVJ sets by synchronizing visuals and audio through DVD. Visuals can be manipulated as you would audio; so video scratching, hot cueing and the new 'back & forth' seamless looping feature bring new creative possibilities. The DVJ-1000 sets a new benchmark for music portability – up to 1,000 MP3 tracks can be accessed on DVD-ROM – and provides the most advanced tool for working with this ever-popular format.

96 kHz/24-bit audio playback allows studios, producers and artists to output tracks in optimum clarity. When connected to Pioneer's digital mixers the DVJ-1000 delivers pure digital dance floor heaven.

Specifications

Power Requirements	AC 220 - 240 V, 50/60 Hz
Power Consumption	40 W
Weight	5.4 kg
